Sir,

Re. Drainage and water supply schemes of Koratagere Town

5735/L

With reference to letter No A 6 C 2381/41-42 dated 23rd March 1942 of the Deputy Commissioner, Tumkur Dist, addressed to you on the above subject, I have the honour to inform that a comprehensive drainage scheme amounting to Rs 20,150/- and a part scheme amounting to Rs 928/- with reports, plans, etc, have been sent this day to the Deputy Commissioner, Tumkur District for needful action

I have the honour to be,
Sir,
Your most obedient servant,

Director of Public Health

and Revenue
Secretariat

States that two an estimate for Rs 20 150 for a Comprehensive drainage scheme for Koratagere has been prepared and requests that the entire Cost of this scheme may be met by Govt owing to the inability of the Koratagere municipal Council to meet even a portion of the Cost

It is reported that a Govt Grant of Rs 1000 has been sanctioned towards the

Park scheme estimated to Cost Rs 928 during the year 1940-41. The amount has been drawn & placed at the disposal of the Sanitary Engr. What progress has been made so far has not been mentioned

6) The Kortagere minor mkty Council has not made a provision to meet the Cost of the Comprehensive scheme estimated at Rs 20,150/ Nor is it in a position to repay any loan. Its resources are limited and not capable of expansion w.r. the circumstances existing.

The scheme is valuable only for a small place like Kortagere and the estimate may even require revision in the light of the prevailing price of cement etc. Rs. Chidambaram, Lebene has to be thought of if the entire cost of the scheme has to be met by Govt as recommended by the DC

7) Submitted for orders

Sd 26/11

8) The park scheme is estimated at Rs 928/ and a grant of Rs 1000/ is available for the purpose, having been placed at the disposal of the Bureau of Sanitary Engineering. The Sanitary Engineer will be requested to carry out the scheme the same very early

9) The comprehensive scheme is estimated at Rs 20,150/ The estimate

may perhaps be put sentences by the Chief Engr in the first instance on the address presented to H.E. the Governor when H.E. & the Kinlaghee main will have prayed that the entire cost of the scheme might be met by the Govt. His Excellency was graciously pleased to reply that the question of drainage is important and the request for financial assistance will understand after that the Govt will be too glad to give them best Consideration. With the schemes of expansion and sanitation contemplated with the Min. of the Public Health in the State

18) The Estimate for Rs 20,150 has been scrutinized by the Chief Engineer and is found to be in order

19) The D C has recommended that the entire Cost of the Scheme may be met by Govt. There is however no reserve left under the current year T. I. Grant - which has been fully distributed There is the additional difficulty of obtaining Cement suitable for such works

~~The Govt~~ 20) Filed for orders with reference to para 12 of the notes supra

21 Since the part scheme has been ordered to be taken up at a cost of Rs 9287 I may also make available. The Comprehensive estimate for Rs 20,150 may perhaps await the turn of better times The D C Dimkum Dist might be requested to review the progress next year, by which time provision will be made in the State Budget for such improvement for 1953-54 - The situation regarding availability of cement may perhaps become easy In the meantime the Mill may also be asked to improve its resources so as to contribute half the expenditure on the scheme - as required by

23 From the tone of the letter it is evident that the Municipal council will not be able to implement its resolution in the near future. It may however make an earnest endeavour.

23 In any case as cement is not available now the proposal may be repeated next year.

Re the improvement of the drainage and sanitation of Koratagere town

Sir,

With reference to your letter No L 7124 dated the 12th February 1942 and subsequent reminders thereto, on the above subject, I have the honor to state that interim replies had been furnished to Government from time to time stating that the estimates for the comprehensive drainage scheme of the town had not been received as yet from the Sanitary Department in spite of requisitions

A comprehensive estimate for the drainage scheme amounting to Rs 20,150/- and a part scheme amounting to Rs 928/- received with letter No C 673-11/41-42 dated 11-10-1942 from the Director of Health have been sent to the Sub Division Officer, Madhugiri for obtaining the resolution of the Koratagere Minor Municipal Council , as to how they intend financing the scheme This has not been received so far A stringent reminder has this day been issued to the Sub Division Officer,Madhugiri for expediting the same and on its receipt, the scheme would be submitted to Government.

I have the honor to be,

Sir,

Re the improvement of the drainage and sanitation of Koratagere Town

With reference to your letter No L 7124 dated the 12th February 1942 and subsequent reminders thereto,on the above subject, I have the honor to forward herewith the entire records received from the Sub Division Officer, Madhugiri Sub Division and to state as follows -

The President states that Koratagere is a small town on Tumkur-Madhugiri road at a distance of 16 miles from Tumkur and 10 miles from Madhugiri The population being, according to the recent census, about 3000, comprising of about 800 houses The town is stated to be surrounded by Sri Gangadhareswara hill on the one side and the river Suvarnamukhi on the other side This town is neither a commercial nor an industrial centre, affording scope for the improvement of the present finances of the Municipality

The main sources of income of this Minor Municipality are the following -

1 Mohatarfa taxses
2 Octroi

and the annual demand under these heads being Rs 1,900/- and Rs 850/- respectively The total income under all heads would

be

be about Rs. 3,500/- and the expenditure also would be very near the income realised, thus practically there would be hardly anything left to meet even the normal expenditure As the town is midway between Tumkur and Madhugiri, there is no scope for improvement of the octroi income

It is not even possible for the Municipality to raise loans to meet these costly scheme such as the drainage and water supply schemes, as the Municipality has no surplus amounts at its credit to pay towards the loan instalment with interest The finances of this Municipality are meagre when compared with those of Pavagada Minor Municipality and richly deserves the sympathetic consideration and out-right grant of the cost of the entire scheme

Taking the poor finances of the Municipality, the Municipal Council, have at their meeting held on 11-11-1942, resolved that as it is not possible to finance the scheme, ~~and~~ Government may be requested to consider their proposal favourably and accord sanction to the scheme and to the meeting of the entire cost of the estimate out of Government grants and the work taken up by stages As regards the part scheme estimated at Rs 928/-, the President states that a sum of Rs 1000/- sanctioned by my predecessor Mr K Guru Dutt, during the year 1940-41 as grant, out of the allotment of Rs.2,000/- placed at the disposal of this office (vide G O No L 1736-48/M1 53-40-12 dated the 27th August 1940) and approved by Government in G O No L 7980-83/M1 53-40-80 dated the 8th May 1941, have been placed at the disposal of the Sanitary Department

In the circumstances stated, I am of opinion that this scheme cannot be taken up by this Municipality at any time with its meagre finances and therefore request that the prayer of this Minor Municipal Council, be sympathetically considered and the entire cost met out of Government grants, (vide note to Rule 278 B(b) M A M page 88)
